Introduction

Electronic filing for T1 returns (EFILE) is limited to the 2015, 2016, 2017 and 2018 income tax returns. It is an automated service that permits those who prepare tax returns on behalf of others to electronically file them to the Canada Revenue Agency (CRA). You must use a software product certified for EFILE to transmit the return using a web service. You will receive a “real-time” acknowledgement, which means a confirmation number is provided almost instantly using the same web service.

The purpose of this chapter is to provide supplementary information for tax preparers and software developers for the completion of the electronic return and the correction of errors. This chapter does not replace or contain information that is in the Federal Income Tax and Benefit Guide, other supplementary guides or other CRA publications.

Ensure the return contains all the required information before it is transmitted. If we have accepted and processed your client’s tax return, you may be able to retransmit an online adjustment. Go to canada.ca/guide-refile for more information. Also, your client can use the “Change my return” option from My Account at canada.ca/my-cra-account. Alternatively, you may change your client’s return if you have a level 2 authorization on your client’s account. Go to canada.ca/cra-represent-a-client for more information.

Processing returns

Electronic tax return

Subsection 150.1(3) of the Income Tax Act states: “For the purposes of section 150, where a return of income of a taxpayer for a taxation year is filed by way of electronic filing, it shall be deemed to be a return of income filed with the Minister in prescribed form on the day the Minister acknowledges acceptance of it.”

For an electronic record to be deemed a return of income filed with the Minister in prescribed form, a confirmation number must be generated by EFILE.

Form T7DR(A), Electronic Filing Remittance Form

As of the 2017 filing season, the Form T7DR(A) is no longer available in paper format. Certified software will have the capability to provide a link to an electronic version of the T7D(A) remittance form.

If not included in the software, you can call **1-800-959-8281** for instructions to download a fillable PDF form. Each electronic T7D(A) form:

- is personalized
- contains a QR code, allowing your client to pay in person at their Canadian financial institution or at any Canada Post outlet across Canada
- contains validations to ensure information is accurate
- is easy to use and take less than a minute to complete

Near real-time processing

The CRA begins processing T1 returns (2015, 2016, 2017 and 2018 tax years) on February 18, 2019. The majority of accepted EFILE returns are processed shortly after being filed in near real time. Notices of assessment delivered electronically will be available within 24 hours. Paper notices of assessment will be issued via a batch cycle process. The first notice of assessment date will be in early March 2019.

Payment of balance owing

Inform clients that payment of any balance owing on the 2018 tax return is due by April 30, 2019. Clients who file early may send the CRA a post-dated payment for as late as April 30, 2019. Compound daily interest is charged on any outstanding balance from May 1, 2019 until it is paid in full. Inform clients that if they cannot pay in full upon filing, they may go to **canada.ca/cra-collections** for additional information.

Go to **canada.ca/guide-taxes-payments** for information on the different types of payment methods.

Refund enquiries

Do not direct your client’s refund enquiries to the EFILE Helpdesks. Instead, your client should call **1-800-959-8281**. Go to **canada.ca/cra-individual-income-tax-enquiries-line** for the hours of telephone service. Advise your client that the CRA enquiries officers can only check the status of the refund 4 weeks after the electronic return has been accepted by the Agency for processing. You must inform your client accordingly if a delay is encountered in the submission of the EFILE return. Your clients can also visit My Account to get information about the status of their current year refund.

Paper documentation

For ease of discussion in this part, all elections, designations, agreements, waivers, and special elective returns are referred to as “elections.”

The Income Tax Act provides for various elections to be made. Some are made on authorized CRA forms. Others are made by providing specific information in a letter or note.

All elections, including the supporting documentation, must be submitted to the CRA in writing, unless otherwise indicated. In order for an election to be considered valid, it must be submitted by the due date established in the Act.

Paper documentation in support of elections should be sent to the tax centre that services the area in which the client lives except for Form T1135, Foreign Income Verification Statement, which is to be sent to the tax centre indicated on the form. If the return is successfully transmitted by EFILE, a paper copy of the form is not required to be sent to the tax centre.

When submitting this documentation:

- Clearly state the client’s full name, address, and social insurance number (SIN) on all the election forms and letters.
- Clearly indicate in the covering letter that this documentation is submitted in support of the client’s electronically filed return.

All other documentation used to prepare the return, excluding elections as indicated, is to be retained and sent to the CRA only if requested.

Identification and other information

The CRA no longer sends an identification mail-out label which reflects information contained in the CRA's records. Confirm with your clients their personal information, including their current address, before entering it on the EFILE return.

The following information is found on page 1 of the Income Tax and Benefit Return. Refer to Appendices A, B, C and D for specifications.

Name

The client's first and/or last name must agree with the information on the CRA's records. If the information you entered was correct, indicate that a name change is required.

Ensure that the name, the SIN and date of birth entered belong to the client for whom you are preparing the return. Non acceptance often results because spousal identification information is entered on the client's return.

When entering the client's name:

- All name fields must begin and end with an alpha character.
- Do not key titles in the taxpayer's name (e.g., Ms, Rev, Dr).
- Where there is a suffix after the taxpayer's name, leave 1 space between the surname and the suffix.
- For hyphenated names, do not leave a space, (e.g., Jones-Smith).
- Where the taxpayer has multiple first names (e.g., Mary Lou), leave a space between the names.
- If the client is an Inuit who uses a number at the beginning of his or her name, key the number on the "care of" line.
- For deceased clients, do not enter "The estate of the late" in the client's first name field.

Address

The alternative address authorization for EFILE has been eliminated for 2016 and subsequent years.

All address fields must begin and end with an alpha or numeric character. Failure to comply with the specifications may result in a processing delay.

For discounted returns, enter the client's address. The CRA will direct the notice of assessment and the refund to the discounter based on the address associated with the discounter code.

When the return is a pre-bankruptcy return, do not enter the trustee's address. It is the client's address that must be entered.

"Care of" line

Do not enter the "care of" information in the client's address lines and do not make an entry on this line unless it is to be used in the client's mailing address. Entries on this line will be printed on the client's notice of assessment. Begin and end the entry with an alpha or numeric character.

When making an entry on the "care of" line, do not include "C/O," "c/o," or "care of."

Street

Begin and end the entry with an alpha or numeric character. When an address contains a fractions, for example, 45½, key as 45 1/2. Leave only 1 space to separate numbers and words (for example, 75 3 Garden St).

City

The entry for city is validated against the CRA's city database index. The only allowable combination of special characters in the "City" field is a period followed by a hyphen.

Postal code

The postal code must be in ANANAN format and it must be valid for the city and the province or territory of residence entered.

Email address

By providing an email address, the client is registering to receive email notifications from the CRA. Refer to the Federal Income Tax and Benefit Guide for the terms of use.

Province or territory of residence

Where the client's mailing address is in a province or territory different from the province or territory of residence on December 31, 2018, the client is still eligible for EFILE.

Enter the client's province or territory where the client lives now if it is different from their mailing address.

Province or territory of self-employment

The entries for the province or territory of residence and of self-employment must be the same or the client is not eligible to EFILE, unless a Form T2203, Provincial and Territorial Taxes – Multiple Jurisdictions, is being filed.

Date of entry

Enter the client's immigration date. The year must be the same as the year of the tax return.

Date of departure

Taxpayers who emigrated from Canada in the year are not eligible for EFILE.

Social insurance number (SIN)

Ensure that the name, the SIN and date of birth entered belong to the client for whom you are preparing the return. Non acceptance often results because spousal identification information is entered on the client's return.

Date of birth

The date of birth is one of the entries used to ensure that the correct master record is accessed for processing the return. If you are preparing a tax return for a client who has previously filed, you should refer to the client's previous notice of assessment to determine if it contained notification concerning a discrepancy in the date of birth.

Changes to the date of birth cannot be made through EFILE. Where a change is required, the client should contact their local tax services office.

Language of correspondence

Enter the client's choice of official language when corresponding with the CRA.

Date of death

Enter your client's date of death. Valid entries are within (or subsequent to) the current tax year.

Marital status

Enter the client's marital status on December 31, 2018.

Spouse's or common-law partner's SIN

Ensure that the client's SIN has not been entered as the spouse's or common-law partner's SIN.

Spouse's or common-law partner's name

The CRA uses only the first 4 characters entered for the spouse's or common-law partner's given name. A period is valid with the exception of the first character.

Spouse's or common-law partner's net income

Enter the spouse's or common-law partner's net income.

Spouse's or common-law partner's universal child care benefit (UCCB)

The spouse or common-law partner who has the lower net income (whether a return would be filed or not) must report the UCCB income. Enter the amount of UCCB benefits and/or any UCCB repayment reported by the spouse or common-law partner with the lower net income.

Yukon First Nations identification number

The acceptable entries for clients living on Yukon First Nations settlement lands on December 31, 2018 are:

- 11001 = Carcross/Tagish
- 11002 = Champagne and Aishihik
- 11003 = Kluane
- 11004 = Kwanlin Dun
- 11006 = Little Salmon/Carmacks
- 11007 = Nacho Nyak Dun
- 11009 = Selkirk
- 11010 = Ta'an Kwāch'ān
- 11011 = Teslin Tlingit
- 11012 = Tr'ondëk Hwëch'in
- 11013 = Vuntut Gwitchin

Telephone number (on page 4 of the return)

Enter the 3-digit area code followed by the telephone number. Do not key spaces or dashes. Always enter the client's telephone number on discounted returns.

Tax return specifications

This part contains specific instructions as they relate to the preparation of the electronic return. Most of the information you may require to complete the return is contained in the Federal Income Tax and Benefit Guide and other supplementary guides.

Canada Pension Plan/Quebec Pension Plan (CPP/QPP) contributions

When making an entry for the CPP/QPP pensionable earnings, do not reduce by the basic CPP/QPP exemption.

Where the client is electing to pay additional CPP contributions (Form CPT20, Election to Pay Canada Pension Plan Contributions), enter the amount of the elective income not shown on a T4 slip at field 373, and the election amounts related to under-deducted T4 contributions at field 399.

Communal organizations

Indicate if the client is a member of a communal organization. The software should build field 9905 with an entry of 7. These clients are not eligible to contribute to a registered retirement savings plan (RRSP). An entry at field 9905 will prevent the CRA from providing RRSP deduction limit statements to them.

Direct deposit request

By providing banking information, the client authorizes the Receiver General to deposit in the bank account designated any amounts payable by the CRA. This authorization replaces all previous authorizations on file. The client must contact the CRA in order to stop the service.

Starting direct deposit for the T1 refund only for pre-bankruptcy returns is not allowed.

Starting direct deposit for deceased clients is not allowed.

Discounted returns

Ensure the amounts entered at fields 6505, 6507 and 6509 on the Form RC71, Statement of Discounting Transaction, are correct. Do not submit the form to the CRA unless requested.

Elections indicator

Indicate if the client is making an election, designation, agreement, waiver, or special elective return at the time of filing the tax return. The software should build field 9906 with an entry of 7. An entry at this field does not constitute an election; it is designed only to inform the CRA that an election, a letter or note containing the required information is being submitted in paper format.

Do not indicate an election which is not required to be made at the time of filing the return. These elections will have to be submitted in accordance with the provisions of the Act.

Foreign business income

If foreign business income is from box 24 of a T3 slip, Statement of Trust Income Allocations and Designations, the amount must be reported at fields 162 and 135 of the tax return. A selected financial data (SFD) statement type 02 must be completed. Complete the fields in the identification area of the SFD as follows:

- Your name and business name – Enter taxpayer's name.
- Business address (including city, province or territory and postal code) – Enter taxpayer's address of residence on the tax return.

- Fiscal period – From January 1 to December 31 (or to the date of death) of the tax year.
- Industry code – Enter 526912.
- Fields 8000, 8299, 8519, 9369 and 9946 – Enter the amount from box 24 of the T3 slip.

Form CPT30, Election to Stop Contributing to the Canada Pension Plan, or Revocation of a Prior Election

Working beneficiaries aged 65 to 70 who elected to opt out of contributing to the CPP or are revoking a prior election should submit the completed Form CPT30 to their employer and send a copy to the CRA. The election/revocation will apply to all income from pensionable employment, including self-employment earnings. Send the original completed form to the Winnipeg Tax Centre using the address shown on the back of the form. Individuals with self-employed income only should not use Form CPT30 when they want to revoke a previous election. Instead, they should indicate the revocation effective date on Schedule 8 when they file their 2018 tax return.

Paragraph 19(d) of the Canada Pension Plan Act requires that the CPP basic exemption be calculated differently in the year an individual commences receiving CPP retirement benefits. Individuals can commence receiving CPP retirement benefits at age 60. This provision is intended to protect an individual's entitlement to the survivor, child and death benefits, based on pre-retirement earnings. The provision under paragraph 19(d) does not apply to the Quebec Pension Plan.

Form T1A, Request for Loss Carryback

Where a carryback of a 2018 loss under sections 111 and 41 of the Income Tax Act is requested, a reassessment to the applicable year will be processed and a notice of reassessment will be issued when the adjustment is complete. The CRA's goal is to issue a reassessment notice within an average of 8 weeks. For electronic returns, the Form T1A does not have to be submitted to the CRA.

Form T626, Overseas Employment Tax Credit

This credit applies to the 2015 and prior tax years only. If there are multiple forms with 2 different calculation rates, a paper return will be required.

Instalments

Ensure the instalment payments that the client remitted to the CRA are included at field 476. Do not include instalment payments as tax deducted at source.

Investment tax credit

Where a carryback of an investment tax credit is requested, a reassessment to the applicable year will be processed and a notice of reassessment will be issued when the adjustment is complete. The CRA's goal is to issue a reassessment notice within an average of 8 weeks.

Manitoba tax credits

If a client who is married or living common-law is entitled to a claim based on entries made on the Form MB479, but no claim is being made because the spouse or common-law partner is making the claim, ensure your tax preparation software does not permit the transfer of the fields from the Form MB479.

If there is an entry for the spouse's or common-law partner's net income and there is a claim for the spouse or common-law partner amount, field 6090 for the personal tax credit is required even where the calculated Manitoba personal tax credit is zero.

When claiming the Manitoba personal tax credit and/or the education property tax credit, and the client received social assistance from the province of Manitoba in 2018, enter the percentage of social assistance received from box 14 on the T5007 slip.

Where the client did not receive social assistance benefits from the province of Manitoba, enter 100 at field 6130. If social assistance was received for the entire year, enter 101 at field 6130.

Newcomers to Canada

To calculate whether to claim the full or prorated non-refundable tax credits, indicate in Canadian dollars if the client has any Canadian sourced non-resident income, excluding the income subject to Part XIII tax, and/or any Canadian sourced non-resident income subject to Part XIII tax plus foreign sourced non-resident income. The software should build field 5292 and field 5293 respectively with these income. Go to canada.ca/cra-non-residents-canada for more information. Refer to Appendix L for the proration calculations.

For the following income, report only the income earned in Canada:

- Field 113 – Old age security pension
- Field 114 – CPP or QPP benefits
- Field 115 – Other pensions or superannuation
- Field 119 – Employment insurance (EI) and other benefits
- Field 126 – Rental income (or loss)
- Field 129 – RRSP income

Newcomers who must file or report the following are not eligible to file electronically:

- Schedule A, Statement of World Income - Non-Residents of Canada
- Schedule B, Allowable Amount of Non-Refundable Tax Credits - Non-Resident of Canada
- Schedule C, Electing Under Section 217 of the Income Tax Act - Non-Resident of Canada
- Income from the following information slips:
 - NR4, Statement of amounts paid or credited to non-residents of Canada
 - T4A-NR, Statement of Fees, Commissions, or Other Amounts Paid to Non-Residents for Services Rendered in Canada
 - NR-OAS, Statement of Old Age Security Pension Paid or Credited to Non-Residents of Canada
- Section 116 – Disposition of taxable Canadian property by non-residents of Canada
- Form T1159, Income Tax Return for Electing Under Section 216
- Form T1136, Old Age Security Return of Income

No income

Indicate when the client has no income to report, that is, no entry at any field from 101 to 150. The software should build field 9915 with an entry of 7.

Patronage allowances

Where the client received non-taxable patronage allocations on which income tax was withheld, claim the tax deducted at field 437. Indicate the income on which this tax was deducted. The software should build field 5345 with this income amount.

Placement agency

If a self-employed worker, engaged by a placement agency, received a T4 slip with CPP/QPP and EI premiums deducted, with code 11 in box 29, and no entry in box 14, update as follows:

If boxes 26 and 28 are blank, update the pensionable CPP earnings (field 5549) and/or the pensionable QPP earnings (field 5548) with the lesser of:

- The gross self-employment income reported in respect of that T4 slip; or
- The maximum CPP/QPP pensionable earnings for the year.

If boxes 24 and 28 are blank, update the EI insurable earnings (field 5478) with the lesser of:

- The gross self-employment income reported in respect of that T4 slip; or
- The maximum EI insurable earnings for the year.

The software should build field 5347 with the amount of the T4 placement agency income reported at the self-employment fields.

If T4 placement agency income is the only income reported at the self-employment fields, enter 1 at field 371 on the Schedule 8 or the Form RC381.

Pre-bankruptcy return

All income reported and deductions claimed are from January 1 to the day before the date of bankruptcy.

The number of months used in the “2018 enrolment information” section on the Schedule 11, Federal Tuition, Education, and Textbook Amounts, cannot exceed the number of months up to and including the month the client became bankrupt.

Field 326 (federal amounts transferred from your spouse or common-law partner) is prorated based on the number of days from January 1 to the day before the date of bankruptcy. Do not prorate the fields on the Schedule 2 (fields 353, 361, 355, 357, 360, 351).

The following claims are not allowed on a pre-bankruptcy return:

- Fields 129, 246 and/or 262 – Home Buyers’ Plan (HBP) and/or Lifelong Learning Plan (LLP) repayment
- Field 448 – CPP overpayment
- Field 450 – EI overpayment
- Field 452 – Refundable medical expense supplement
- Field 453 – Working income tax benefit (WITB)
- Field 415 – WITB advance payment received on the RC210 slip
- Field 488 – Refund transfer to the instalment account for the following year

Refund transfer

Indicate if the client wants to transfer the refund to the next year’s instalment account. The software should build field 488 with an entry of 1. In this instance, a request for direct deposit of the refund is not permitted.

Rental income

If more than 1 rental property is covered by the SFD record, enter the address and postal code of the property that generated the highest gross rental income.

Restricted farm loss

If the chief source of income is neither from farming nor from a combination of farming and some other source of income, you can only deduct a portion of the farm loss for the year. The portion of the loss that you cannot deduct becomes a restricted farm loss. The restricted farm loss limit is \$17,500 annually. This means that if your net farm loss is \$32,500 or more, you can deduct \$17,500 from the other income. The software should build field 5495 with the total farming loss. For more information, see Guide T4002, Self-employed Business, Professional, Commission, Farming, and Fishing Income.

Selected financial data (SFD) records

Complete a SFD record using the applicable type when the client is reporting any of the following:

- SFD type 01 – Form T776, Statement of Real Estate Rentals
- SFD type 02 – Form T2125, Statement of Business or Professional Activities (business and commissions)
- SFD type 03 – Form T2125, Statement of Business or Professional Activities (professional)
- SFD type 04 – Form T2121, Statement of Fishing Activities
- SFD type 05 – Form T2042, Statement of Farming Activities
- SFD type 06 – AgriStability and AgriInvest programs (Form T1163 and Form T1273)
- SFD type 07 – Form T777, Statement of Employment Expenses
- SFD type 08 – Form TL2, Claim for Meals and Lodging Expenses
- SFD type 09 – AgriStability and AgriInvest programs (pages 1 and 7 of Form T1273)
- SFD type 11 – Form T2091(IND), Designation of a Property as a Principal Residence by an Individual
- SFD type 12 – Form T1255, Designation of a Property as a Principal Residence by the Legal Representative of a Deceased Individual

Note also the following:

- A separate SFD record is to be completed for each source of income or expenses or for each property disposed.
- SFD type 06 is to record the information from the Form T1163 and from pages 1 to 5 of the Form T1273. The supplementary information on page 7 of the Form T1273 is recorded as SFD type 09.
- There must be 1 SFD type 06 for every SFD type 09 and they count as 2 different SFDs.
- A client with more than 80 field codes present on the free format of SFD types 01 to 08 is not eligible to EFILE. Refer to **Exclusions from electronic filing** for the maximum occurrences allowed for SFD type 09.
- A client with more than 6 SFD records is not eligible to EFILE.
- A SFD using the appropriate type 01, 02, 03, 04, or 05 is required for a client who is an active partner or is reporting rental, fishing or farming income (or loss) from a T5013 slip. There is no requirement to capture the address information from a T5013 slip.

Spouse's or common-law partner's net income

The spouse's or common-law partner's net income is captured in the "Identification" area on page 1 of the return. This income will be used in the calculations for non-refundable and refundable tax credits, and provincial or territorial tax and credits. This information will also be used to calculate the GST/HST credit. Where the marital status is married or living common-law, indicate if the net income is zero or negative. The software should build field 9918 with an entry of 7.

If your client is a newcomer to Canada, indicate the spouse's or common-law partner's net income earned during the period the client was living in Canada and the net income earned during the period the client was living outside Canada. The software should build field 5263 and field 5267 respectively with the income amount. Also indicate if either amount is zero or negative. The software should build the field with an entry of 1 for processing purposes.

Tax deducted

If your client resides outside the province of Quebec and was employed in the province of Quebec, indicate the income and tax deducted on the relevé 1 (information slip from the province of Quebec).

When there is an election to split pension income on the Form T1032, include the amount of income from the Quebec information slips that are in the client's name, regardless if a portion has been transferred to the spouse or common-law partner at field 210. Likewise, where Quebec tax deductions are included at field 6805, only include the amount if the slips are in the client's name.

The software should build field 5349 with the Quebec tax deducted and field 5350 with the income on which the Quebec tax was withheld.

Tax deducted transfer

Field 438 is applicable only for residents of Quebec who were employed outside the province of Quebec in 2018. Do not include tax deductions withheld on CPP/QPP and/or EI benefits.

Tax preparer code

When the return was prepared by a tax professional, indicate whether a fee was charged. The software should build field 490 with an entry of 1 if a fee was charged, and with an entry of 2 if no fee was charged.

Volunteer program

Indicate if the return was completed under the Community Volunteer Income Tax Program. The software should build field 487 with an entry of 1.

Wage-loss replacement plans

Indicate if an amount of premiums paid to a wage-loss replacement plan has been used to reduce the benefits reported. Report only the amount of the net benefits at field 104. Enter the contributions made to a wage-loss replacement plan at field 103.

The software should build field 9916 with the amount of premiums used to reduce the benefits reported at field 104.

Canadian Indians

Status Indians are subject to the same tax rules as other Canadian residents unless their income is eligible for tax exemption under section 87 of the Indian Act. The exemption applies to the income that is earned on a reserve or that is considered to be earned on a reserve, as well as to goods bought on, or delivered to, a reserve. However, a member of a First Nations group that has negotiated a self-governing or tax agreement with the Government of Canada may not qualify for the exemption under section 87 of the Indian Act. To find out, contact the First Nations government.

The following are guidelines for the completion of returns for status Indians who are in receipt of exempt income:

Employment income

Non-taxable salary or wages paid to status Indians are indicated on a T4 slip as follows, if the total employment income is exempt.

Application for coverage under the CPP (Form CPT124):

- Box 14 should be blank. In the “Other information” area on the T4 slip, box 71 should indicate the amount of the non-taxable earnings for a status Indian employee.
- Indicate the non-taxable earnings from box 71 that is included in box 14. The software should build field 5347 with this amount.
- For working income calculation purposes, the software should build field 5363 with the non-taxable earnings from box 71.
- Update field 5548 (QPP pensionable earnings where the province of employment is Quebec) and/or field 5549 (CPP pensionable earnings where the province of employment is other than Quebec) with the amount indicated in box 26 (maximum of \$55,900 per slip).

No application for coverage under the CPP:

- Box 14 should be blank. In the “Other information” area on the T4 slip, box 71 should indicate the amount of the non-taxable earnings for a status Indian employee.
- Indicate the non-taxable earnings from box 71 that is included in box 14. The software should build field 5347 with this amount.
- For working income calculation purposes, the software should build field 5363 with the non-taxable earnings from box 71.

Indicate if the client has only exempt T4 income and no other income to report (no entries are being made in fields 101 to 150). The software should build field 9915 with an entry of 7.

If the client has exempt T4 income and also other income to report (entries are being made in fields 104 to 150), the software should build field 5347 with the non-taxable earnings from box 71.

Do not claim any deductions withheld for registered pension plan contributions, union or professional dues and/or other employment expenses on the non-taxable earnings. Where CPP/QPP contributions and/or EI premiums were withheld, update the appropriate fields.

Self-employment income

Where the total self-employment income is exempt, do not make any entry in the self-employment fields and do not prepare any SFD records. Indicate the exempt net self-employment income, excluding losses. For working income calculation purposes, the software should build field 5363 with this income, plus any exempt self-employed income from box 88 on the T4 slip.

Where the client is electing to pay additional CPP contributions on the self-employment income not shown on a T4 slip (Form CPT20), enter the exempt net self-employment income at field 373 on the Schedule 8 or Form RC381.

Employment insurance, provincial parental insurance plan, and other benefits

These benefits are reported on a T4E slip. Enter at field 119 the amount from box 14 (total benefits paid), minus any amount in box 18 (tax-exempt benefits).

The software should not build field 5363 with these benefits. It should build field 5378 with the tax-exempt portion of the benefits. Where tax was deducted at source, the software should build field 5345 with the income on which the tax was withheld.

CPP/QPP benefits

Enter the amount of benefits received at field 114 and enter at field 232 the tax-exempt portion of the benefits. The software should build field 5378 with the tax-exempt portion of the benefits.

Training allowances

Indicate the amount of training allowances received that is exempt income. This income should not be included as income on the return. However, for working income calculation purposes, the software should build field 5363 with the amount of exempt training allowances.

Other types of exempt income and tax deducted at source on exempt income

Indicate any other types of exempt income not received from a T4 slip, and if applicable, any tax withheld at source. The software should build field 5378 with this income and field 5345 with the income on which the tax was withheld.

Not all exempt income reported at field 5378 should be included at field 232, Other deductions.

Pooled registered pension plans (PRPP)

Complete Form RC383 to allow the CRA to calculate and track your client's non-deductible PRPP room and non-deductible PRPP contributions on tax-exempt earned income. Enter the total amount of tax-exempt employment earnings at field 5875. Enter the total tax-exempt self-employment earnings and other tax-exempt earned income at field 5881.

Gross tax-exempt employment earnings are reported in box 71 of the T4 slip, and gross tax-exempt self-employment earnings are reported in box 88 of the T4 slip. Your client may have other tax-exempt earned income not included on an information slip.

Contributions to a PRPP from tax-exempt income are not deductible on the taxpayer's income tax return; however, they can be used as a repayment under the HBP or the LLP.

Working income tax benefit (WITB)

For WITB calculation purposes, include at field 388 and field 389 on the Schedule 6 the exempt part of all income (including amounts from box 71 of the T4 slip and amounts from box 18 of the T4E slip if the T4E income was earned as a result of working on a reserve) less the deductions related to the income.

Fields 385 and 386 should include, but are not limited to, the non-taxable working income reported at field 5363.

Fields 388 and 389 include, but are not limited to, the non-taxable working income reported at field 5363, plus other non-taxable income reported at field 5378.

Information for tax preparers and software developers

Exclusions from electronic filing

Electronic filing for T1 returns is limited to the 2015, 2016, 2017 and 2018 income tax returns. While most taxpayers will qualify to have their returns electronically filed using EFILE, certain situations may still exclude a taxpayer from EFILE for these years. Please refer to the following criteria. Go to canada.ca/cra-efile-file-returns and select “Exclusions” for a full list of exclusions.

1. Foreign workers employed in Canada under the Seasonal Agricultural Workers Program who are non-residents or deemed non-residents. Refer to the guide **RC4004, Seasonal Agricultural Workers Program**.
2. The taxpayer is a deemed resident (not subject to provincial or territorial tax).
3. The taxpayer died prior to the current tax year. Early filed and elective deceased returns also remain as exclusions.
4. The taxpayer’s social insurance number (SIN) begins with a zero. Only newcomers to Canada with a SIN starting with a zero are eligible to use EFILE.
5. When the taxpayer is coded bankrupt according to the Canada Revenue Agency’s records, the T1 return for the year immediately prior to the year of bankruptcy is an exclusion and must be filed by the trustee in bankruptcy (if not previously filed by the taxpayer). The in-bankruptcy and post-bankruptcy returns are also exclusions from EFILE. Only pre-bankruptcy returns that are not early filed are accepted through EFILE.
6. The taxpayer is an emigrant or a non-resident.
7. Taxpayers who are filing or reporting the following forms and returns are excluded from EFILE:
 - a. Schedule A, Statement of World Income - Non-Residents of Canada.
 - b. Schedule B, Allowable Amount of Non-Refundable Tax Credits - Non-Resident of Canada.
 - c. Schedule C, Electing Under Section 217 of the Income Tax Act - Non-Resident of Canada.
 - d. Section 116 – Disposition of taxable Canadian property by non-residents of Canada.
 - e. Form T1159, Income Tax Return for Electing Under Section 216.
 - f. Form T1136, Old Age Security Return of Income.
 - g. Income from the following information slips:
 - i. NR4, Statement of amounts paid or credited to non-residents of Canada.
 - ii. T4A-NR, Statement of Fees, Commissions, or Other Amounts Paid to Non-Residents for Services Rendered in Canada.
 - iii. NR-OAS, Statement of Old Age Security Pension Paid or Credited to Non-Residents of Canada.
8. The taxpayer is filing Form RC199, Voluntary Disclosures Program (VDP), Taxpayer Agreement, or the taxpayer is making a request to the VDP.
9. The taxpayer’s address is outside Canada.
10. The taxpayer is electing to defer tax on a distribution of spin off shares by foreign corporations.

11. The taxpayer is reporting any of the following:
 - a. Canadian-source income from Lloyds of London.
 - b. Employment income earned from an international organization.
 - c. Lump-sum pension income accrued to December 31, 1971.
 - d. More than 6 selected financial data (SFD) records.
 - e. Ontario, Saskatchewan, British Columbia, or Yukon qualifying environmental (mining reclamation) trust tax credit.
 - f. Form T1198, Statement of Qualifying Retroactive Lump-Sum Payment.
 - g. More than 80 field codes present in the free format area of SFD types 01 to 08.

12. The taxpayer is claiming any of the following:
 - a. Less than the maximum federal foreign tax credit.
 - b. Business income tax paid to more than 3 foreign countries.
 - c. Non-business income tax paid to more than 3 foreign countries.
 - d. Deduction for scientific research and experimental development expenses.
 - e. Form T89, Alberta Stock Savings Plan Tax Credit.
 - f. Nova Scotia research and development tax credit recapture.

13. The taxpayer is reporting farming income with the AgriStability and AgriInvest programs which involves any of the following:
 - a. Farming income from a partnership reported on a T5013 slip.
 - b. Farming income from a partnership that includes a corporate partner.
 - c. Status Indian reporting tax-exempt self-employed income.
 - d. SFD type 06 that has exceeded the maximum occurrences for the following fields:
 - i. 29 occurrences of “Commodity sales and program payments” at field 9950.
 - ii. 29 occurrences of “Commodity purchases and repayment of program benefits” at field 9960.
 - e. SFD type 09 that has exceeded the maximum occurrences in the following sections:
 - i. 50 occurrences for “Crop inventory valuation and productive capacity”.
 - ii. 50 occurrences for “Livestock inventory valuation”.
 - iii. 8 occurrences for “Purchased inputs”.
 - iv. 19 occurrences for “Livestock productive capacity”.
 - v. 8 occurrences for “Deferred income and receivables”.
 - vi. 8 occurrences for “Accounts payable”.

Appendix A – Provincial and territorial alpha characters

The following characters must be used whenever an entry for a province or a territory is required.

PE	Prince Edward Island
NS	Nova Scotia
NB	New Brunswick
QC	Quebec
ON	Ontario
MB	Manitoba
SK	Saskatchewan
AB	Alberta
BC	British Columbia
NT	Northwest Territories
YT	Yukon
NU	Nunavut

Appendix B – Valid characters

The following chart illustrates the acceptable characters for each field of the identification record. In general, key hyphens using a dash, and Roman numerals are to be keyed as alpha characters.

Character	First name	Last name	“care of” line	Street address	City	Province	Spouse name
Alphabetic	X	X	X	X	X	X	X
Numeric			X	X	X		
Space	X ⁽¹⁾	X ⁽¹⁾	X ⁽¹⁾	X ⁽¹⁾	X ⁽¹⁾		X ⁽¹⁾
Hyphen	X	X	X ⁽²⁾	X ⁽²⁾	X		X
Apostrophe	X	X	X ⁽³⁾	X ⁽³⁾	X		X
Period	X ⁽⁴⁾	X ⁽⁴⁾	X ⁽⁴⁾	X ⁽⁴⁾	X ⁽⁴⁾		X ⁽⁴⁾
Slash			X ⁽⁵⁾	X ⁽⁵⁾	X		
Ampersand			X ⁽⁶⁾	X ⁽⁶⁾			
Diacritic	X	X	X	X	X		X
Brackets				X ⁽⁷⁾

⁽¹⁾ A space is considered valid at any position except at the first position.
⁽²⁾ A hyphen is not allowed in the first or last position in the “care of” line or in the street address.
⁽³⁾ An apostrophe is not allowed in the first or last position in the “care of” line or in the street address.
⁽⁴⁾ A period is considered valid at any position except at the first position.
⁽⁵⁾ A slash is not allowed in the first or last position in the “care of” line or in the street address.
⁽⁶⁾ An ampersand is not allowed in the first or last position in the “care of” line or in the street address.
⁽⁷⁾ Brackets are not allowed in the first or last position in a street address.
⁽⁸⁾ A pound sign is not allowed in the first or last position in a street address.

Appendix C – Treasury Board of Canada addressing standard

The record length for a taxpayer's street and/or mailing address is 60 characters. In order to ensure that the most accurate address information is captured for mailing purposes, the taxpayer's address information should be captured in the following order:

Apartment number

When an address includes an alpha character as part of the apartment or unit number, key a hyphen between the apartment or unit number and the street number. Do not key any spaces before or after the hyphen. See the following examples:

- 313D-2233 Main Street
- D-2233 Main Street
- D313-2233 Main Street

Building unit identifier

A number or alpha code which uniquely identifies a unit of a specific type within a building.

Civic site street number

Enter the number assigned to a specific civic site by the official municipality or relevant authority.

Civic site street number suffix

Enter an alpha character or fraction added to a civic site number by an official municipality or relevant authority.

Street direction code

Enter Canada Post Corporation's mnemonic code for street direction. The acceptable entries are:

- E = East
- N = North
- NE = Northeast
- NW = Northwest
- S = South
- SE = Southeast
- SW = Southwest
- W = West

Street name

Enter the full name of a street, roadway, or artery assigned by an official municipality or relevant authority.

Street type code

Enter the street type code in addition to the street name to uniquely designate the street from other streets having the same street name. See Appendix D.

Appendix H – Inter-provincial calculation for CPP and QPP contributions and overpayments

The Canada Pension Plan (CPP) and the Quebec Pension Plan (QPP) have different contribution rates. The CRA will calculate the CPP and/or QPP contributions separately using the applicable rate(s) based on the information provided on the Form RC381, Inter-Provincial Calculation for CPP and QPP Contributions and Overpayments. The CRA will determine the portion of the yearly basic exemption, and the maximum contributory earnings, that will be applied to the CPP and the portion that will be applied to the QPP.

Complete the Form RC381 in one of the following situations:

- You earned employment income in the province of Quebec and you were a resident of a province or territory other than Quebec. If this is the case, complete Part 1. If you were at least 65 to 70 years of age, read Part 2. If you were self-employed and/or had other earnings on which you want to elect to pay CPP contributions on, also complete Part 3.
- You earned employment income in a province or territory other than Quebec and you were a resident of Quebec. If this is your case, complete Part 1. If you were also self-employed and/or you had income on which you want to make optional contributions on, also complete Part 4.

If these situations do not apply, complete Schedule 8, Canada Pension Plan Contributions and Overpayment, to calculate any CPP overpayment.

Example 1 – Non-Quebec resident, QPP only, business income

A 45 year old taxpayer (resident in a province or territory other than Quebec) contributed to QPP only. He has a T4 slip from Quebec (box 14 and box 26 = \$48,000). The gross business income is \$50,000 and the pensionable net self-employment earnings are \$10,000).

Example 4 – Quebec resident, died in the year, CPP only

A 63 year old taxpayer (resident of Quebec) who contributed to CPP only during the year, died in October. There is a non-Quebec T4 slip (box 14 and box 26 = \$47,000) and no self-employment income is reported.

RC381, Part 1 – CPP/QPP calculation		
Enter the number of months during which the CPP applies to you in 2018. (read the instruction sheet)	10	A
Enter the number of months during which the QPP applies to you in 2018. (read the instruction sheet)	10	B

- Line 5034 = 2,178.00
- Line 5031 = 2,161.47

Example 5 – Non-Quebec resident, CPP and QPP, CPT20 election

A 62 year old taxpayer (resident of a province or territory other than Quebec) contributed to both CPP and QPP. She has a T4 slip from Quebec (box 14 and 26 = \$15,000) and 3 non-Quebec T4 slips (box 14 and 26 = \$20,000; box 14 and 16 = \$4,000; and box 14 and 26 = \$2,000). No self-employment income reported. She has elected to pay additional CPP contributions on her under-deducted employment earnings.

Appendix I – Working beneficiaries with pensionable employment earnings

Working beneficiaries at least 60 to 70 years of age are required to contribute to the Canada Pension Plan (CPP) whether they are employed or self-employed.

Working beneficiaries at least 65 years of age, but under 70, may make an election to stop contributions to the CPP. This election may be revoked in a subsequent year.

When there is an election in the tax year, the taxpayer will not contribute to CPP starting with the election effective month.

Example 1:

- The election effective date on record is April 2018. The taxpayer files a 2018 T1 return with CPP contributions.
- The CPP contribution will be calculated from January to March only. The proration factor of 3/12 will be used.
- For future years and elections made in December, the effective date will be January of the subsequent year. The taxpayer may also revoke in this subsequent year, meaning the system will have to use both election and revocation effective dates.

Example 2:

- The election effective date on record is January 2018, meaning an election was made December 2017. Therefore, a revocation can be made in 2018. The revocation effective date on record is June 2018.
- The CPP contributions will be calculated for June to December. The proration factor of 7/12 will be used.

Example 3:

- The 68 year old taxpayer works in and out of Quebec. He is in receipt of CPP retirement benefits and has a CPT30 election on record with an effective date of April 2018.
- The taxpayer files 2018 T1 return with CPP and QPP contributions indicated on Form RC381.
- The system will calculate QPP contributions based on the QPP pensionable earnings at field 5548, for the entire year.
- The CPP contributions will be calculated for January to March only. The proration factor of 3/12 will be used by the system.
- When there is a relevant revocation in the tax year, the taxpayer will contribute to CPP, starting in the revocation effective month.

Example 4:

- There is a relevant revocation effective date on record as April 2018. The taxpayer files a 2018 T1 return with CPP contributions.
- The CPP contributions will be calculated for April to December. The proration factor of 9/12 will be used by the system.

Appendix J – Spouse’s or common-law partner’s capital gain from mortgage foreclosures and conditional sales repossessions

Supporting field 5230 captures the spouse’s or common-law partner’s capital gain from mortgage foreclosures and conditional sales repossessions. This type of gain is excluded from the calculation of net income in order to determine the refundable medical expense supplement, the working income tax benefit, and the low-income tax reduction for the provinces of Newfoundland and Labrador, Prince Edward Island, Nova Scotia, New Brunswick, and the British Columbia sales tax credit.

The amount at field 5230 is calculated as follows:

- If there is no amount at field 127, field 5230 is equal to zero.
- If there is an amount at field 127, the following rules apply:
 1. If field 124 and field 155 are both less than or equal to zero, field 5230 is equal to zero.
See Example 1.
 2. If field 124 is less than or equal to zero but field 155 is greater than zero, compare the taxable portion of the amount at field 155 with the amount at field 127:
 - a. If the taxable portion is less than field 127, field 5230 is equal to the taxable portion of field 155.
See Example 2a.
 - b. If the taxable portion is greater than or equal to field 127, field 5230 is equal to the amount at field 127.
See Example 2b.
 3. If field 124 is greater than zero but field 155 is less than or equal to zero, compare the taxable portion of the amount at field 124 with the amount at field 127:
 - a. If the taxable portion is less than field 127, field 5230 is equal to the taxable portion of field 124.
See Example 3a.
 - b. If the taxable portion is greater than or equal to field 127, field 5230 is equal to the amount at field 127.
See Example 3b.
 4. If field 124 and field 155 are both greater than zero, compare the taxable portion of the total of the amounts reported at these fields with the amount at field 127:
 - a. If the taxable portion is less than field 127, field 5230 is equal to the taxable portion of the amounts at fields 124 and 155.
See Example 4a.
 - b. If the taxable portion is greater than or equal to field 127, field 5230 is equal to the amount at field 127.
See Example 4b.

Example 1 – Field 124 and field 155 are both less than or equal to zero

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = loss of \$2,000
- Field 155 = \$0
- Field 127 = \$0

In this situation, no entry is required for field 5230 on the taxpayer's return.

Example 2a – Field 124 is less than or equal to 0 but field 155 is greater than zero

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = loss of \$1,000
- Field 155 = gain of \$3,000
- Field 132 = gain of \$5,000
- Field 127 = \$3,500

The taxable portion of field 155 is \$1,500 (50% of \$3,000). The lesser of the taxable capital gain at field 155 and the amount at field 127 is \$1,500.

In this situation, field 5230 = \$1,500.

Example 2b – Field 124 is less than or equal to 0 but field 155 is greater than zero

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = loss of \$1,000
- Field 155 = gain of \$5,000
- Field 132 = loss of \$2,000
- Field 127 = \$1,000

The taxable portion of field 155 is \$2,500 (50% of \$5,000). The lesser of the taxable capital gain at field 155 and the amount at field 127 is \$1,000.

In this situation, field 5230 = \$1,000.

Example 3a – Field 124 is greater than 0 but field 155 is less than or equal to zero

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = gain of \$4,000
- Field 155 = loss of \$3,000
- Field 107 = gain of \$5,000
- Field 127 = \$3,000

The taxable portion of field 124 is \$2,000 (50% of \$4,000). The lesser of the taxable capital gain at field 124 and the amount at field 127 is \$2,000.

In this situation, field 5230 = \$2,000.

Example 3b – Field 124 is greater than 0 but field 155 is less than or equal to zero

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = gain of \$30,000
- Field 155 = loss of \$10,000
- Field 132 = gain of \$5,000
- Field 127 = \$12,500

The taxable portion of field 124 is \$15,000 (50% of \$30,000). The lesser of the taxable capital gain at field 124 and the amount at field 127 is \$12,500.

In this situation, field 5230 = \$12,500.

Example 4a – Field 124 and field 155 are both greater than zero

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = gain of \$3,000
- Field 155 = gain of \$200
- Field 107 = gain of \$5,000
- Field 127 = \$4,100

The taxable portion of field 124 and field 155 is \$1,600 (50% of \$3,200). The lesser of the taxable capital gain at field 124 plus field 155 and the amount at field 127 is \$1,600.

In this situation, field 5230 = \$1,600.

Example 4b – Field 124 and field 155 are both greater than zero

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = gain of \$35,000
- Field 155 = gain of \$15,000
- Field 132 = loss of \$10,000
- Field 127 = \$20,000

The taxable portion of field 124 and field 155 is \$25,000 (50% of \$50,000). The lesser of the taxable capital gain at field 124 plus field 155 and the amount at field 127 is \$20,000.

In this situation, field 5230 = \$20,000.

Appendix K – Net self-employment income (loss) adjustment amount

Supporting field 5532 is an adjustment field to be used when an individual has more than 1 business reported at one of the self-employment fields (135, 137, 139, 141, or 143) and reports income from one, and a loss from another.

As the individual's "working or earned income" used in the calculation of the working income tax benefit (WITB) and refundable medical expense supplement should only include the net income (not loss) from each business, field 5532 is to be updated to equal the amount required to negate the loss. Otherwise, the T1 system will only use the amount entered at the self-employment field to calculate the allowable credit at fields 452 and 453.

For married or common-law couples, if Spouse A is claiming the WITB for both partners, as his or her working income is higher, field 5532 should still be updated on Spouse B's return if it is applicable to his or her return, in case a spousal match is performed on the returns.

Example 1:

Sally operates Business A with a net income of \$5,000 and Business B with a net loss of \$3,000.

- Field 135 will be a net income of \$2,000 (\$5,000 minus \$3,000).
- The total self-employed income excluding losses is \$5,000 (from Business A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

\$5,000 (line 5) minus \$2,000 (field 135) = \$3,000.

Therefore, field 5532 = \$3,000.

Example 2:

Doug operates Business A with a net income of \$5,000 and Business B with a net loss of \$8,000.

- Field 135 will be a net loss of \$3,000 (\$5,000 minus \$8,000).
- The total self-employed income excluding losses is \$5,000 (from Business A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

\$5,000 (line 5) minus \$0 (the loss at field 135 is not used in the calculation) = \$5,000.

Therefore, field 5532 = \$5,000.

Example 3:

John operates Farm A with a net income of \$5,000, Farm B with a net income of \$2,000, and Farm C with a net loss of \$10,000.

- Field 141 will be a loss of \$3,000 (\$5,000 plus \$2,000 minus \$10,000).
- The total self-employed income excluding losses is \$7,000 (from Farms A and B).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

\$7,000 (line 5) minus \$0 (the loss at field 141 is not used in the calculation) = \$7,000.

Therefore, field 5532 = \$7,000.

Example 4:

Jennifer operates Business A with a net income of \$5,000 and Business B with a net loss of \$5,000.

- Field 135 is considered to be zero.
- The total self-employed income excluding losses is \$5,000 (from Business A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

\$5,000 (line 5) minus \$0 (field 135) = \$5,000.

Therefore, field 5532 = \$5,000.

Example 5:

Peter operates Farm A with a net income of \$5,000.

- Field 141 will be a net income of \$5,000.
- The total self-employed income excluding losses is \$5,000 (from Farm A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

\$5,000 (line 5) minus \$5,000 (field 141) = \$0.

Therefore, field 5532 = \$0.

Example 6:

Serge operates Farm A with a net income of \$5,000. Serge also operates Business 1 with a net income of \$2,000, and Business 2 with a net loss of \$10,000.

- Field 141 will be a net income of \$5,000.
- Field 135 will be a loss of \$8,000 (\$2,000 minus \$10,000).
- The total self-employed income excluding losses is \$7,000 (from Farm A and Business 1).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

\$7,000 (line 5) minus \$5,000 (field 141) minus \$0 = \$2,000.

Therefore, field 5532 = \$2,000. Note that the loss at field 135 is not used.

Appendix L – Non-refundable tax credits for newcomers

In the year of immigration, a newcomer to Canada may be limited in the amount allowed for the following non-refundable tax credits.

Field	Federal, provincial or territorial	Description
300	Federal	Basic personal amount
301	Federal	Age amount
303	Federal	Spouse or common-law partner amount
304	Federal	Canada caregiver amount for spouse or common-law partner, or eligible dependant age 18 or older
305	Federal	Amount for an eligible dependant
307	Federal	Canada caregiver amount for other infirm dependants age 18 or older
318	Federal	Disability amount transferred from a dependant
324	Federal	Tuition amount transferred from a child
326	Federal	Amounts transferred from your spouse or common-law partner
367	Federal	Canada caregiver amount for infirm children under 18 years of age
5804	All provinces and territories	Basic personal amount
5808	All provinces and territories	Age amount
5812	All provinces and territories	Spouse or common-law partner amount
5814	YT only	Caregiver amount for spouse or common-law partner, or eligible dependant age 18 or older
5816	All provinces and territories	Amount for an eligible dependant
5817	BC only	British Columbia caregiver amount
5818	YT only	Caregiver amount for infirm dependants age 18 or older

5860	All provinces and territories, except NB, ON and SK	Tuition, education (and textbook) amounts transferred from a child
5864	All provinces and territories	Amounts transferred from your spouse or common-law partner

An immigrant must meet the 90% rule for the period of non-residency in order to be allowed the non-refundable tax credits in full. A taxpayer will meet the 90% rule if the Canadian-source income reported for the part of the year while not a resident of Canada is 90% or more of the net world income for that part of the year, or if there was no income from sources inside and outside Canada for that part of the year. The 90% rule is calculated as follows:

$$(\text{Canadian-source non-resident income} \times 100\%) \div (\text{Net world non-resident income})$$

If a taxpayer does not meet the 90% rule, the above non-refundable tax credits must be prorated based on the immigration date.

Situation A:

Olga arrived in Canada on June 30, 2018. In the period of non-residency (January 1 to June 29, 2018), she had \$30,000 of Canadian-source non-resident income and \$3,000 of foreign-source non-resident income.

90% rule calculation:

$$(\$30,000 \times 100\%) \div (\$30,000 + \$3,000) = \mathbf{90.9\%}$$

Example A1 – Allowing non-refundable tax credits in full

Olga meets the 90% rule and is entitled to the non-refundable tax credits in full.

The entries to be made are:

- Field 5292 = 30,000
- Field 5293 = 3,000

Situation B:

Pedro, who is 67 years old, and his spouse Suzanne arrived in Canada on September 25, 2018. In the period of non-residency (January 1 to September 24, 2018), Pedro had \$4,000 of Canadian-source non-resident income (employment income) and \$5,000 of foreign-source non-resident income. Suzanne had foreign-source non-resident income of \$1,000 during the same period. Pedro's net income between September 25 and December 31 was \$15,000 and Suzanne's was \$800 in the same period.

90% rule calculation:

$$(\$4,000 \times 100\%) \div (\$4,000 + \$5,000) = \mathbf{44.4\%}$$

Pedro does not meet the 90% rule and must prorate the non-refundable tax credits based on the immigration date.

Example B1 – Prorating the basic personal amount

Pedro claims \$3,171 on line 300 of his Schedule 1, calculated as follows:

$$(98 \text{ days in Canada} \times \$11,809) \div (365 \text{ days in 2018}) = \mathbf{\$3,171}$$

Example B2 – Prorating the age amount

Pedro claims \$608 on line 301 of his Schedule 1, calculated as follows:

First, prorate the maximum age amount of \$7,333:

$$(98 \text{ days in Canada} \times \$7,333) \div (365 \text{ days in 2018}) = \$1,969 \text{ (A)}$$

Then, prorate the base income amount of \$36,976:

$$(98 \text{ days in Canada} \times \$36,976) \div (365 \text{ days in 2018}) = \$9,928 \text{ (B)}$$

Since Pedro's net income is greater than amount (B), he must reduce amount (A) by 15% of the amount of his income that is more than the prorated base income amount (B), as follows:

$$\$19,000 \text{ minus } \$9,928 = \$9,072 \text{ (excess amount)}$$

$$\$9,072 \times 15\% = \$1,361 \text{ (C)}$$

The age amount that Pedro can claim is (A) minus (C):

$$\$1,969 \text{ minus } \$1,361 = \$608$$

Example B3 – Prorating the spouse or common-law partner amount

Pedro claims \$2,371 on line 303 of his Schedule 1, calculated as follows:

First, prorate the maximum spouse or common-law partner amount of \$11,809:

$$(98 \text{ days in Canada} \times \$11,809) \div (365 \text{ days in 2018}) = \$3,171$$

Then, subtract Suzanne's net income (earned while living in Canada):

$$\$3,171 \text{ minus } \$800 = \$2,371$$

Note that should an immigrant be entitled to the Canada caregiver amount, the amount should not be directly prorated when the immigrant does not meet the 90% rule. Proration should be performed after adding the base amount and the Canada caregiver amount.

The entries to be made are:

- Field 300 = 3,171
- Field 301 = 608
- Field 303 = 2,371
- Field 5263 = 800
- Field 5267 = 1,000
- Field 5292 = 4,000
- Field 5293 = 5,000
- Spouse's or common-law partner's net income = 1,800
